

Annual Fall Fundraising Campaign – 2007

Believe it or not, there are many kids who need extra support T/E. Perhaps the family doesn't own a car, or the parents can't help with homework. Perhaps the family doesn't have a computer, or the kids go to school hungry. T/E has children who face these and a host of other obstacles to success that are beyond their control. Children like these could be your neighbors. They hide their situation very well.

Happily, FLITE started to fund programs during the 2006–2007 school year that helped bridge the gaps created by unfortunate circumstances. In fact, although FLITE was founded just over a year ago, over 80 children were helped through special programs during the 06/07 year. All these programs will continue during the 07/08 year, and new ones have been added. Great things are happening!

This Help FLITE Help Kids Campaign is our 2nd annual appeal to the community. The support of T/E residents is critical in order to help all T/E students be able to take advantage of everything that our outstanding district offers. As we reach out to help more kids, it will cost more money! Your donation can enable FLITE to fund these and similar programs. Programs that tax dollars do not provide.

So, please take a moment right now to download the donation form, fill it out and send it in with your check. You can really make a difference in the life of a child right here in T/E by making a donation to FLITE today. Every dollar matters.

Every child deserves a chance to excel and do well in school, don't you think?

Thanks in advance for your support!
